MULTIWALL POLYCARBONATE SHEET

American Polycarbonate Company (APC) issues the following warranty for AmeriLite MW Pro multiwall polycarbonate sheets as outlined in paragraphs A and B, subject to the limitations and exclusions listed herein.

LIGHT TRANSMISSION

- A. A 10 year warranty relating to the following properties:
For the warranty period the yellowing index in transmittance measured according to ASTM D 1925-77, shall change no more than 10 delta for Clear (S) and Softlite (DC) sheets in comparison with the original value.

For the warranty period of 10 years the light transmission, measured according to ASTM D 1003-77, shall decrease by no more than 6% for Clear (S) and Softlite (DC) sheets in comparison with the original value.

WEATHER BREAKAGE

- B. A 10 year warranty relating to the following properties:
For a period of 10 years, no breakage will occur due to normal weathering of the UV protected surface of the sheet. Claims for hail damage will be evaluated using a hail simulation test. Any sheet tested and which remains unbroken by impact from artificial hail stones up to 7/8" diameter, with surface impact speeds of 30m/s, will not be the subject of any claim. Hail sizes reported either greater than 7/8" diameter or at speeds greater than 30m/s will void a warranty claim.

GENERAL CONDITIONS

1. The commencement date of this warranty is the date of original purchase and remains valid to the original purchaser only. Claimants must provide a receipt indicating the proof of purchase date.
2. Any other claims for damage or loss, either direct or indirect, or consequential whatever the cause thereof, are expressly excluded from this warranty.
3. The warranty remains valid only if the sheet has been correctly stored, handled, installed and cleaned as recommended by APC.
4. APC, or its authorized agent, must be notified of any claim immediately and not later than 28 days after the alleged failure. The claimant must allow an inspection of the installation site prior to removal of the sheets from their original position. In addition, APC reserves the right to independently investigate the circumstances of failure, including checks with the local meteorological survey and others.

Samples of the sheet must be provided for testing when requested by APC.
